Q: How does the Sponsor intend to vote their shares?, page xxxix

1. We note your disclosure on pages xxxix, 21 and elsewhere in the registration statement that the Sponsor and its affiliates may purchase or enter into agreements to purchase shares from public shareholders, which could have the effect of increasing the likelihood of satisfying the requirements to approve the Business Combination. Summary of the Proxy Statement/Prospectus

Obagi, page 2

We acknowledge your revised disclosures in response to prior comments 3 and 13. Please

further revise your disclosures to state whether you or Obagi have

received any

communications, whether oral or written, from the FDA or other similar regulatory  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1$ 

authorities regarding the continued marketing and sale of products containing  $\ensuremath{\text{HQ}}$  or

 $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

 $% \left( 1\right) =\left( 1\right) \left( 1\right)$  whether you are aware of any other device similar to the Skintrinsiq device that pursued or

is pursuing FDA authorization.

3. We acknowledge your response to our prior comment 6 that Obagi offers alternative  $\,$ 

 $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

without a pharmacy or license. You also disclose on page 275 that the European

Commission has expressed concerns on the potential use of arbutin in cosmetic products  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right)$ 

and for which it completed a public consultation in April 2021. Please expand your

disclosure as appropriate of the use of arbutin in cosmetic products, including the risks  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left($ 

associated with this ingredient, any statements the FDA or European Commission has  $\,$ 

 $\,$  made regarding this ingredient, either publicly or to you or Obagi, and clarify whether this

ingredient is permitted to be used in other countries such as those in  $\mbox{\sc Asia-Pacific.}$ 

Risk Factors, page 38

4. We note your revised disclosures regarding the post-transaction ownership percentage by

the Sponsor, including in certain scenarios assuming various levels of redemption. Please  $\,$ 

add disclosure as appropriate, including in a risk factor, regarding any risks arising from  $\,$ 

the significant ownership by the Sponsor following the transaction. Information About Obagi, page  $271\,$ 

5. We note your revised disclosures in response to prior comment 14. Your disclosure

continues to refer to Obagi products as "rooted in science" and science-backed, or refers

to the products' efficacy in terms of having the ability to prevent or improve various skin  $\,$ 

conditions. For example, you state on page 273 that Obagi Medical products' reputation

lies in the "robust clinical evidence" that you have developed, and that your Obagi

Medical products use medical-grade formulations. However, you also acknowledge that

the significant majority of your products are not approved by the FDA, even when

required. We continue to have concerns regarding the many references in your registration  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +$ 

statement to your products being supported by scientific studies, medical-grade, or being

clinically proven, as these terms imply approval by the FDA or a similar regulatory  $% \left( 1\right) =\left( 1\right) +\left( 1\right)$ 

authority. Please advise why it is appropriate to include references to various clinical trials

in your registration statement when they are not the basis for regulatory approval, and to

imply conclusions without discussing the underlying data. Please substantially revise your

disclosures to remove any implications that your products have been approved by a

regulatory authority.
